For Immediate Release:

Go!Wx earns Microsoft Advanced Infrastructure Solutions

With a Specialization in Hosting...

MINNEAPOLIS, MN — May 9, 2008 — Go!Wx, Inc., a leader in IT hosting, Software Plus Service (S+S) and Software as a Service (SaaS), today announced it has earned its competency in Advanced Infrastructure Solutions in Microsoft Corporation's Partner Program recognizing Go!Wx's expertise and total impact in the technology marketplace. Go!Wx achieved another significant milestone by acquiring the competency in Specialization in Hosting. The Advanced Infrastructure Solutions Competency is specially intended for partners with proven expertise in designing and/or implementing complex infrastructure solutions such as, Active Directory, Exchange Migration and Deployment, Storage Solutions and Systems Management. Go!Wx has already been conferred with Microsoft Competencies in Network Infrastructure Development and Small Business Specialist.

Data is an indispensable part of business and Go!Wx recognized that early on with our primary purpose of providing people to work "Anywhere at Anytime" and built with "hassle free IT" in mind. The increasing demand of companies to do more with less has been instrumental in developing a partner driven hosted solution. Companies of all sizes are seeking cost-effective hosting solutions that keep critical data protected and highly accessible. The Advanced Infrastructure Solutions Competency will allow Go!Wx to identify their unique skill in helping customers access management solutions, improving operational efficiency and reducing security risks.

Go!Wx was founded in 1995 and specializes in providing hosting for ERP and CRM solutions. During its lifetime Go!Wx has provided many companies the ability to manage their business. Making traditional on premise product available online offers their customers a variety of options for gaining the benefits the software packages provide. Go!Wx enables health care, manufacturing, non profit, distribution, legal, transportation, financial, professional services, and environmental companies an opportunity to manage their firms in very effective ways.

"Our recent accomplishment with Advanced Infrastructure Solutions Competency gives us an opportunity to provide enhanced services to our clients," said Mark Picknell, Go!Wx CIO. "In addition, it enables us to access exclusive tools and information to help increase our customer's revenues and provide new market opportunities to grow and develop their business". Microsoft Competencies (<https://partner.microsoft.com/global/program/competencies/>) certify an in-depth technical and business expertise in specific domains and defined areas of specialization. This provides a platform to partners in showcasing their unique skills to customers and aligning their business with Microsoft's marketing initiatives.

"We are extremely pleased to have earned Advanced Infrastructure Solutions Competency in
